Although others at Democratic state headquarters concede that the legislature will be Republican on a close majority of one or more, Chairman Mc-Connville does not concede the control of that body to the Republicans. Mr. McConnville said the Republicans claimed the legislature by 75 to 70. Ho struck the representatives from Wood and Noble counties from their list, also the senator from the Marion-Logan district and said these three changes would nicke the legislature stand 73 Democrats to 72 Republicans, and he would never give either of these three doubtful claims up till the official count

was completed. At Republican headquarters the list of the senatorial districts are given in which it is claimed that the Republicans have 17 and the Democrats 19, The only district disputed by the Democratic managers is that which includes Marion and Logan counties and which would make the senate stand 16 Republicans to 20 Democrats. The Republicans concede that the Democrats will have two majority in the senate and that no "ripper" bills reorganizing the cities or any municipal boards can therefore be passed. The Republicans claim that the organization of the senate depends upon the attitude of Senator Voight of Cin-

cinnati, who is a fusion Republican. The Republican state committee claims that the two representatives from Summit county are the only ones in doubt and that the returns show the house to stand 58 Republicans, 49 Democrats and two doubtful and that in their claims of 75 to 18 with a majority of five on joint ballot for squator they have so far conceded Summit county to the Democrats although they expect the official count to give them as least one of the two representatives from that

How the Fusionists Will Vote, CINCINNATI, Nov. 4 .- The four Republicans selected on the fusion ticket for the house in Hamilton county are Charles F. Droste, John C. Otis, Dr. R. W. Lane, Frank H. Kemper. In interviews Kemper says he will vote for the Republican cancus nominee; Otis will oppose Hanna, but is otherwise noncommittal; Lane is a free silver man, and will probably vote with the Democrats on local measures, is unpledged for senatorial candidate; Droste is for free silver and says he will vote for a senatorial candidate who agrees with him. Voight; the fusion Republican senator, has not been interviewed.

OHIO IS REPUBLICAN

Claim the Legislature.

Democrats Elect Chief Judge of Court Legislature Still in Doubt-Kentucky Legislature Democratic.

plurality to be near 26,520. Both sides still claim a majority of the legislature. Republicans by five, Democrats by three

McKinley was 51,409. Hamilton county gave Mckinley last year a plurality of 19,740 and it gave Bushnell (Rep.) this year a plurality of only 1,510, a Republican loss in that county of 18,230, while the Republican loss in the whole state on pluralities is 24,589.

At both the Republican and the Domocratic state headquarters figures are being substituted for the claims of yesterday. Chairman McConnville, of the Democratic state committee, concedes the defeat of his state ticket, but states they have reduced the Republican plurality of 51,000 of last year by over onehalf. Although others at Democratic state headquarters concede that the legislature will be Republican on a close majority of one or more, Chairman Mc-Connville does not concede the control of that body to the Republicans. Mr. office un stairs, corner of Chestent St. A. McConnville said the Rejublicans of St. Lonis Avenue. Residence 120 Fifth the et. et. between Chestent and Walnut streets. Calls answered promptly McConnville said the Republicans and Noble counties from their list, also the senator from the Marion-Logan district and said these three changes would nicke the legislature stand 73 Democrats to 72 Republicans, and he would never give either of these three doubtful claims up till the official count

was completed. At Republican headquarters the list of the senatorial districts are given in which it is claimed that the Republicans have 17 and the Democrats 19. The only district disputed by the Democratic managers is that which includes Marion and Logan counties and which would make the senate stand 16 Republicans to 20 Democrats. The Republicans conorde that the Democrats will have two majority in the senate and that no any municipal boards can therefore be passed. The Rapublicans claim that the on of the senate depends upon the attitude of Senator Voight of Cin-

cinnati, who is a fusion Republican.

The Republican state committee claims that the two representatives from Summit county are the only ones in doubt and that the returns show the house to stand 58 Republicans, 49 Democrats and two doubtful and that in their claims of 75 to 18 with a majority of five far conceded Summit county to the Democrats although they expect the official count to give them as least one of the two representatives from that

How the Pusionists Will Vote. CINCINNATI, Nov. 4 .- The four Republicans selected on the fusion ticket for the house in Hamilton county are Charles F. Droste, John C. Otis, Dr. R. W. Lene, Frank H. Kemper. In interviews Kemper says he will vote for the Republican caucus nominee; Otis will oppose Hanna, but is otherwise noncommittal; Lane is a free silver man, and will probably vote with the Democrats on local measures, is unpledged for senatorial candidate; Droste is for free silver and says he will vote for a senatorial candidate who agrees with him. Voight; the fusion Republican senator, has not been interviewed.

MASSACHUSETTS.

Revised Returns of the Vote on Governor. The Legislature.

Boston, Nov. 4.-Roger Wolcott, the Republican candidate, has been reelected as governor of Massachusetts by a plurality of nearly 86,000. There are still a few remote precincts to be heard from, but the total votes in these districts is only a few hundred.

Revised returns show a total vote of 165,370 for Wolcott, 79,414 for George Fred Williams, regular Democratic candidate, and 14,134 for William Everett,

Will Require the Official Count to Determine the Result.

DENVER, Nov. 4.- The result of the of Appeals in New York and the Re- election in this state, so far as justice of publicans the Legislature - Maryland the supreme court is concerned, will require the official canvass to decide who has won. Returns and estimates so far lature. COLUMBUS, O., Nov. 4. - Unofficial received show Hayt (Silver Rep.) 82 but complete returns show Bushnell's votes in the lead. Counties yet to be heard from are divided and some doubtful. The chairman of the Populist and Democratic parties claim that full returns will give their candidate (Gabbert) from 1,000 to 1,500 majority. In The plurality in Ohio last year for this (Arapahoe) county the entire Silver Republican ticket was successful except Borstadt for sheriff.

Salt Lake Municipal Contest. SALT LAKE, Utah, Nov. 4 .- The Citizens Reform party has elected the mayor, auditor and three members of the council. The Democrats elected the recorder, city attorney, treasurer and eight members of the council. The Republicans elected four councilmen. The vote for mayor was: Clark (Citizens Reform), 4,380; Dale (Dem.), 4,288; Deremus (Rep.), 3,330; Lawrence (Pop.), 1,161; Hasbrouck (Social Labor), 166.

NEBRASKA.

Republicans Concede Defeat of Their

Candidate for Supreme Judge. LINCOLN, Neb., Nov. 4.-The latest returns simply confirm what was evidenced by the earlier reports, that the fusion state ticket is elected by a plurality fully as large as that given Bryan last year, if not larger. Secretary Sizer of the Republican state committee, authorizes the following statement:

"Returns thus far received by the Republican state committee point to the election of Sullivan (Fusion) for supreme judge by a plurality of 5,000 to 10,000. Returns show that Republican candidates for regents of the university ran ahead of Post for judge and we will not yet concede their defeat.'

Returns from 38 counties give Post (Rep.) 43,641 and Sullivan (Fusion) 49-101, Post's vote falling 7,279 below that given the Republican candidate for governor last fall in the same counties.

JOHN R MCLEAN has a job in Washington, but not as United States senator. Neither are his prospects for that position very bright. He can continue to look after his property franchises at at the national capital, which are increasing his millions quite rapidly.

In Ohio the election was fought out on party lines The principles as enun ciated in the national platforms of 1896 were made the issues of the campaign. On these issues the republicans won The republican party never loses anything by keeping its fundamental principles before the people.

THE to al vote of Van Wyck was 228,495. The total vote of the anti-Tammany forces was 268,288. This proves what the REPUBLICAN has said all the time, that it the oppo ition to Tamnany voted together the tiger would be laid low It was the reform movemen' though backed by sincere and honest men, that made possible the triumph of a disgrace to the great metropolis.

After meals you should have simply feeling of comfort and satisfaction. You should not feel any special indicaions that digestion is going on. I ou do, you have indigestion, which means not-digestion. This may be the eginning of so many dangerous diseases that it is best to take it in hand at Cordial. For you know that indigestion makes poison, which causes pain and sickness. And that Shaker Digesive Cordial helps digestion. Shaker Digestive Cordial does this by providing the digestive materials in which the sick stomach is wanting. It also tones up and strengthens the digestive organs and makes them periectly healthy. This is the rationale of its method of cure, as the doctors would say. Sold by esteemed by all. So soon as the ceredruggists, price 10 cents to \$1.00 per mony was completed Mr. Hamer and

Passenger Train Held Up at Litchfield,

LITCHFIELD, Ills., Nov. 4 .- As the Buffalo, New York and Beston limited on the Wabash pulled out of here two hiding in the swamp. unmasked men boarded the chaircar and at the point of revolvers demanded that the passengers give up their valuables. After going through the car, which was done at a lively rate, the robbers pulled the bellcord, the train stopped and they got off, running east on Third street and disappearing as the train moved on. The robbers got between \$70 and \$80 and a gold watch.

MODERN NEWSPAPERS.

There Are No Prejudices In the Way of

the New Journalist. The new journalist has no prejudices that interfere with his business ends. The founder of his school was the first man to make an absolutely noncartisan paper, and the successful men I talked with declared that the best way commercially to make an editorial page him begone and he disappeared. was to turn it over to some man with mind and character who would direct its policy independently and in good Constable of Cementville Killed With a faith in the interests of the community as a whole, regardless of parties, cliques, advertisers or any other interests, however powerful. But while this is being done the business man who proposes to conduct the enterprise would have an equally independent news department, and, having the most intelligent readers to begin with, he would broaden the news policy from their point of view, spending as much as sensationalism costs for more important, better written news. In short, the commercial ideal contains distinct appreciation of the power of opinion, but it prizes just as highly the value of the authoritative statement of all the news.

"There's not room for many such newspapers, but that's the kind that would live and pay forever, " said my new commercial journalist. - J. Lincoln Steffens in Scribner's.

Leather and Kerosene. There is one use of kerosene which is seldom mentioned. It often happens that when a heavy shoe or boot has been wet it hardens and draws so that it hurts the foot. If the shoe is put on caped injury. and the leather thoroughly wet with kerosene, the stiffness will disappear and the leather become pliable, adapting itself to the foot. If oiled while wet, the leather retains its softness a longer time. The kerosene does not injure the leather at all.

An Eccentric Author.

Those familiar with Paul de Kocs could guess the nature of the novelist work by a glance at his dress. When writing a comparatively serious chapter, he always wore a frock coat of military cut and ornamented with frogs. If engaged on lighter work, his costume consisted of a blue flannel dressing Sep 16 no gown and an elaborately embroidered

HIS SKULL CRUSHED

Robert Butler Struck a Terrible Blow by the Victim of a Joke.

CEMENTVILLE, IND., MURDER.

Young Lady Discovers a Negro Under Her Bed-Bank Dynamited and a Depot Robbed-Shot His Divorced Wife-Receiver For the Chicago and Southeastern Railroad.

ROCKPORT, Ind., Nov. 4 .- As a result of a practical joke, which are common enough in the factory of the Western school supply house here, Robert Butler, aged 21, suffers a fractured skull, and physicians say he cannot recover. Morton Clarke, another employe of the factory, was Butler's assailant, he having struck him over the head with the seat of a schooldesk. The trouble arose over someone putting belt sand, which looks like sugar, on Clarke's bread and jelly. All the boys laughed as he began eating it, and, after a few words, he took his revenge out on young Butler. Clarke is about 23 years old and has a wife. He escaped, but a warrant is out for his

BANK AND DEPOT ROBBED.

Burglars Work the Shipshewana Bank and the Middlebury Depot.

SHIPSHEWANA, Ind., Nov. 4 .- The Shipshewana bank, a private institution, with R. S. Davis as president and H. Davis as cashier, was burglarized. Nothing was known of the loss until the doors of the bank were found open and the inside wrecked and in great confusion. The vault and safe had been forced with dynamite. The amount of money carried away is not distinctly known, but it is reported to be \$5,000. It is believed that the burglars came from Sturgis on a handcar, and after the robbery they used it in reaching Middlebury, where they robbed the Lake Shore depot of several hundred dollars. The robbers threw the handcar in the river and are supposed to be

In Ohio the election was fought out n party lines The principles as enun niated in the national platforms of 1896 were made the issues of the campaign. On these issues the republicans won The republican party never loses anything by keeping its fundamental principles before the people.

THE to al vote of Van Wyck was 228,495. The total vote of the anti-Tammany forces was 268,288. This proves what the REPUBLICAN has said all the time, that it the oppo ition to Tamnany voted together the tiger would be laid low It was the reform movemen', though backed by sincere and honest men, that made possible the triumph of that organization which has been such a disgrace to the great metropolis.

After meals you should have simply feeling of comfort and satisfaction. You should not feel any special indicaions that digestion is going on. It ou do, you have indigestion, which means not-digestion. This may be the peginning of so many dangerous diseases that it is best to take it in hand at said the words that made them busband once and treat it with Shaker Digestive and wife. The contracting parties are Cordial. For you know that indigesion makes poison, which causes pain and sickness. And that Shaker Digestive Cordial helps digestion. Shaker Digestive Cordial does this by providing the digestive materials in which the sick stomach is wanting. It also tones up and strengthens the digestive organs and makes them perfectly healthy. This is the rationale of its method of cure as the doctors would say. Sold by druggists, price 10 cents to \$1.00 per

MODERN NEWSPAPERS.

There Are No Prejudices In the Way

the New Journalist. The new journalist has no prejudices that interfere with his business ends. The founder of his school was the first man to make an absolutely nonpartisan paper, and the successful men I talked with declared that the best way commercially to make an editorial page was to turn it over to some man with its pelicy independently and in good faith in the interests of the community as a whole, regardless of parties, eliques, advertisers or any other interests, however powerful. But while this is being done the business man who proposes to conduct the enterprise would have an equally independent news department, and, having the most intelligent readers to begin with, he would broaden the news policy from their point of view, spending as much as sensationalism costs for more important, better written news. In short, the commercial ideal contains distinct appreciation of the power of opinion, but it prizes just as highly the value of the authoritative statement of all the news.

"There's not room for many such newspapers, but that's the kind that would live and pay forever," said my new commercial journalist.-J. Linceln Steffens in Scribrer's.

Leather and Kerosene.

There is one use of kerosene which is seldom mentioned. It often happens that when a heavy shoe or boot has been wet it hardens and draws so that it hurts the foot. If the shoe is put on caped injury. and the leather thoroughly wet with kerosene, the stiffness will disappear and the leather become pliable, adapting itself to the foot. If oiled while wet, the leather retains its softness a longer time. The kerosene does not injure the leather at all.

An Eccentric Author.

Those familiar with Paul de Kocs could guess the nature of the novelist work by a glance at his dress. When writing a comparatively serious chapter, he always wore a frock coat of military cut and ornamented with frogs. If engaged on lighter work, his costume consisted of a blue flannel dressing gown and an elaborately embroidered smoking cap.

One of Milton's biographers says that nearly 20 years elapsed between the sketching out of the plan of "Paradise Lost" and the completion of that work. The actual labor of composition was condensed into three years.

Young Lady Discovers a Negro Under Her Bed-Bank Dynamited and a Depot Robbed-Shot His Divorced Wife-Recciver For the Chicago and Southeastern Railroad

ROCKPORT, Ind., Nov. 4 .- As a result of a practical joke, which are common enough in the factory of the Western school supply house here, Robert Butler, aged 21, suffers a fractured skull, and physicians say he cannot recover. Morton Clarke, another employe of the factory, was Butler's assailant, he having struck him over the head with the seat of a schooldesk. The trouble arose over someone putting belt sand, which looks like sugar, on Clarke's bread and jelly. All the boys laughed as he began eating it, and, after a few words, he took his revenge out on young Butler. Clarke is about 23 years old and has a wife. He escaped, but a warrant is out for his

plurality to be rear 26,520. Both sides still claim a majority of the legislature, Republicans by five, Democrats by three

The plurality in Ohio last year for McKinley was 51,409. Hamilton county gave Mckinley last year a plurality of 19,740 and it gave Bushnell (Rep.) this year a plurality of only 1,510, a Republican loss in that county of 18,230, while the Republican loss in the whole; state on pluralities is 24,589.

At both the Republican and the Domocratic state headquarters figures are being substituted for the claims of yes- The vote for mayor was: Clark (Cititerday. Chairman McConnville, of the Democratic state committee, concedes the defeat of his state ticket, but states they have reduced the Republican plurality of 51,000 of last year by over onehalf. Although others at Democratic state headquarters concede that the legislature will be Republican on a close majority of one or more, Chairman Mc-Connville does not concede the control of that body to the Republicans. Mr. McConnville said the Republicans claimed the legislature by 75 to 70. Ho struck the representatives from Wood and Noble counties from their list, also the senator from the Marion-Logan district and said these three changes would make the legislature stand 73 Democrats to 72 Republicans, and he would never give either of these three doubtful claims up till the official count

was completed. At Republican headquarters the list of the senatorial districts are given in which it is claimed that the Republicans have 17 and the Democrats 19. The only district disputed by the Democratic managers is that which includes Marion and Logan counties and which would make the senate stand 16 Republicans to 20 Democrats. The Republicans concere that the Democrats will have two majority in the senate and that no "ripper" bills reorganizing the cities or any municipal boards can therefore he passed. The Rapublicans claim that the organization of the senate depends upon the attitude of Senator Voight of Cin-

cinnati, who is a fusion Republican. The Republican state committee claims that the two representatives from Summit county are the only ones in doubt and that the returns show the house to stand 58 Republicans, 49 Democrats and two doubtful and that in their claims of 75 to 18 with a majority of five on joint ballot for squator they have so far conceded Summit county to the Democrats although they expect the official count to give them as least que of the two representatives from that

How the Pusionists Will Vote, CINCINNATI, Nov. 4 .- The four Republicans selected on the fusion ticket for the house in Hamilton county are Charles F. Droste, John C. Otis, Dr. R. W. Lane, Frank H. Kemper. In interviews Kemper says he will vote for the Republican caucus nominee; Otis will oppose Hanna, but is otherwise noncommittal; Lane is a free silver man, and will probably vote with the Democrats on local measures, is unpledged for senatorial candidate; Droste is for free silver and says he will vote for a senatorial candidate who agrees with him. Voight; the fusion Republican senator, has not been interviewed.

MASSACHUSETTS.

Revised Returns of the Vote on Governor,

The Legislature. Boston, Nov. 4.-Roger Wolcott, the Republican candidate, has been reelected as governor of Massachusetts by a plurality of nearly 86,000. There are still a few remote precincts to be heard from, but the total votes in these districts is only a few hundred.

Revised returns show a total vote of 165,370 for Wolcott, 79,414 for George Fred Williams, regular Democratic candidate, and 14,134 for William Everett,

542, nearly 11,000 less than his total vote this year. This year's political complexion of the general house will be as follows: Senate—Republicans, 52; Democrats, 7. House—Republicans, 182; Democrats, 51; Independents, 6; Prohibitionists, 1.

Counties yet to be heard from are divided and some doubtful. The chairman of the Populist and Democratic parties claim that full returns will give their candidate (Gabbert) from 1,000 to 1,500 majority. In this (Arapahoe) county the entire Silver Republican ticket was successful except Borstadt for sheriff.

Candidate for Supreme Judge. Lincoln, Neb., Nov. 4.-The latest returns simply confirm what was evidenced by the earlier reports, that the fusion state ticket is elected by a plurality fully as large as that given Bryan last year, if not larger. Secretary Sizer of the Republican state committee, authorizes the following statement:

"Returns thus far received by the Republican state committee point to the election of Sullivan (Fusion) for supreme judge by a plurality of 5,000 to 10,000. Returns show that Republican candidates for regents of the university ran ahead of Past for judge and we will not yet concede their defeat."

Returns from 38 counties give Post (Rep.) 43,641 and Sullivan (Fusion) 49-101, Post's vote falling 7,279 below that given the Republican candidate for governor last fall in the same counties.

IOWA.

Estimates of the Republican and Democratic Chairman.

DES MOINES, Ia., Nov. 4 .- Returns by counties are nearly all in now. Chairman McMillan, of the Republican state nah under suspicious circumstances committee, has complete returns from about two weeks ago, has been heard this means he has figured a plurality for patro Shaw (Rep.). of about 31,782. thinks that these figures will vary but little as the corrected returns when the five estimated counties come in. The plurality may be set down as above 31-000 and below 32,000. Chairman Walsh, of the Democratic state committee has given out no figures. He thinks that errors in the returns may reduce the plurality for Shaw to 20,000,

Van Wyck, Tammany candidate for mayor of New York, has 81,548 plurality over Seth Low, and 118,401 over General Tracy. The state legislature remains Republican. The senators, hold-over, and the new house of assembly stands 85 Republicans to 68 Democrats.

decline to protect their lives because few dollars of their money. This seems almost inseems almost incredible but it is true. Men feel and realize that the most relentless enemy of mankind, consumption, is slowly but swiftly creeping upon them. But in the mad race for money they refuse to stop and drive off the dread disease. It would require a sacrifice of both time and money and so they register it until it is too late.

they neglect it, until it is too late.

There is no excuse for this. A sure and quick remedy is at hand. Dr. Pierce's Golden Medical Discovery cures 98 per cent. of all cases of consumption. It remedies all disorders of the digestion. It invigorates the liver. It makes new rich blood and builds up firm healthy flesh. It enters the blood and drives out all impurities, and acts directly upon the lungs driving out all disease grows. It builds sound vital tissue disease germs. It builds sound vital tissue in the lungs. Thousands have testified to their cure by this wonderful remedy after they were given up by the doctors and all hope was gone. Druggists sell it.

"I am a traveling saleslady and have been for eighteen years. When I find people who are affiicted I tell them what Dr. Pierce's medicines have done for me. Twelve years ago I was given up to die. I had what all my physicians called consumption. I had hemorrhage of the langs, night-sweats, and in fact I fully realized my condition. I begged of them to let me try the 'Golden Medical Discovery,' and the result is, I still live and do lots of hard work."

WILL LOSE HIS SIGHT. Stranger Throws Acid In Captain J. II.

Hoobler's Face. VANCEBURG, Ky., Nov. 4.—Captain J. B. Hoobler, the well known bridge maonry contractor, was called to the door of his residence by a stranger, and as he opened the door the man struck him with a beerbottle and threw into his face the contents of a smaller bottle, which is supposed to have contained acid. His head was terribly gashed and his face horribly blistered and burned. Captain Hoobler's married daughter, who followed him to the door, received some of the acid on her hand. After accomplishing the deed the stranger warned the others not to scream or he would kill them all. The condition of Captain Hoobler is serious. He will lose the sight of both eyes.

MODERN NEWSPAPERS.

There Are No Prejudices In the Way of

the New Journalist. The new journalist has no prejudice that interfere with his business ends The founder of his school was the first man to make an absolutely nonpartisan paper, and the successful men I talked with declared that the best way commercially to make an editorial page was to turn it over to some man with mind and character who would direct its policy independently and in good faith in the interests of the communi as a whole, regardless of parties, cliques, advertisers or any other interests, however powerful. But while this is being done the business man who proposes to conduct the enterprise would have an equally independent news department, and, having the most intelligent readers to begin with, he would broaden the news policy from their point of view, spending as much as sensationalism costs for more important, better written news. In short, the commercial ideal contains distinct appreciation of the power of opinion, but it prizes just as highly the value of the authoritative statement of all the news.

"There's not room for many such newspapers, but that's the kind that would live and pay forever, " said my new commercial journalist.-J. Lincoln Steffens in Scribner's.

An Eccentric Author. Those familiar with Paul de Kocs could guess the nature of the novelist' work by a glance at his dress. When writing a comparatively serious chapter, he always wore a frock coat of military cut and ornamented with frogs. If engaged on lighter work, his costume consisted of a blue flannel dressing gown and an elaborately embroidered smoking cap.

One of Milton's biographers says trat nearly 20 years elapsed between the sketching out of the plan of "Paradise Lost" and the completion of that work. The actual labor of composition was condensed into three years.

Negro Found Under a Bed In Aziel Carter's House is Ordered to Get Out. DANVILLE, Ind., Nov. 4.—The daughter of Aziel Carter went to an upper room to close a window, and discovered the knees of a man protruding from under the bed, Although frightened, she managed to convey word to her father, who went to the room, and in a Quakerlike way said to the intruder; "Thee had best come out from under there. The man proved to be a negro, armed with a big knife and carrying eight or ten feet of rope. He claimed that he had been working for some one in that vicinity, with whom he had trouble. and fearing arrest, he had secreted himself in Mr. Carter's home. Mr. Carter bade him begone and he disappeared.

SIMPLE ARCHITECTURE OF MUD HOUSES IN NEW MEXICO.

How the Bricks Are Made-They Have Straw In Them and Are Sun Dried. Dwellings Made In This Way Are Very Durable-A Favorable Climate.

Architectural engineering is a branch of the gentle art of making mad pies in the land where the adobe houses grow. In the land of sunshine, where a rainy day is so rare that it is marked with a red cross, the native contractor and builder wastes no time figuring on the strength of material, the crushing limit of tubular columns and the wind pressure per square foot of elevation. He does not pore over blue prints of plans, cross sections and elevations, nor does he whittle down his figures to the finest point so as to come under some other contractor's bid. He simply rolls his trousers up above his knees, digs down in a favored ditch or poad until he strikes the "dobe mud," and in a short time he is ready to Legin constructive operations.

Adobe houses are brick houses, but the brick is sun dried and made with straw. The clay or mud of which the brick is made is a natural cement pe culiar to the arid plains of New Mexico, Arizona, Nevada and that belt of states and territories. It is turned out in the New Lenton, Ind., where he had a cleasant visit among his friends.

> The walls of an adobe house are very hick, sometimes two or three feet, and n the ordinary one story adobe house which is characteristic of that region they are built up perfectly plain unti they reach the roof. The roof is supported on wooden beams, laid edgewise on the walls, and the bricks are built up level with the top of the beams between the timbers, leaving the edge of the rafters exposed. The roof has a slight slant, and is made of adobe bricks. When it rains, the water soaks into the roof bricks, but does not begin to drip down the aisle, took a seat on the other, down into the rooms below until the rain is over. Then the family moves out until the water is through with its dripping. I saw an adobe house in Santa Fe which was built in the sixteenth century, and, so far as I could see, the walls were as strong and good as any house around there.
